

Sea Technology Index

Volume 33 (1992)

This instant reference index of technical subjects, news, and special features from Volume 33 of *Sea Technology* magazine provides information about article and news item subjects (Part One) and authors of feature articles (Part Two). Numbers following entries indicate issue month and page number.—*Editor*

Part One SUBJECT INDEX

- A-**
- ABE, autonomous benthic explorer (article) 1/50
Accelerated life testing, underwater (article) 12/56
Acoustic daylight,
 new detection technology? 5/75
 under study by ONR 8/68
Acoustic doppler speed logs (article) 8/55
Acoustic interferometer, swath bathymetry (article) 6/37
Acoustic modems, deep sea moorings (article) 5/29
Acoustic positioning, wellheads (article) 4/10
Acoustic test facility at sea (USNS *Hayes*) (article) 1/1
Acoustics, transducer primer for
 electronics engineers (article) 1/9
ADATS, acoustic telemetry (article) 5/10
Adhesives, cable-connector assemblies (article) 7/10
Advanced Technology Program,
 proposals received 10/9
Air conditioning, deep seawater uptake (article) 9/37
Algae, killer seaweed 1/9
ALTOOOR buoy, instrument evaluations 5/29
Antifoulant, NRL develops 3/86
Aquaculture research support urged 6/9
Arctic research vessel design (article) 3/53
Antisubmarine warfare,
 defense budget for ASW still 95% (Editorial) 11/7
 FY 93 budget down slightly (article) 11/10
 impact of changed threats (article) 11/19
 tactical system simulator (article) 3/67
 USNS *Hayes* acoustic test facility (article) 11/41
ATASS, ASW tactical system simulator (article) 3/67
ATLAS buoy, role in TOGA (article) 7/55
Auger TLP, acoustic positioning
 of wellheads (article) 4/10
Autonomous expendable CTD profiler (article) 9/49
Autoplots, tanker, USCG operation rules 12/9
AUVs,
 autonomous benthic explorer (article) 1/50
 electrical power systems (article) 7/58
 first British, under-ice trials 4/9
 heat engine technology overview (article) 7/15
 image processing architecture (article) 4/55
 neural networks for guidance (article) 2/25
- B-**
- Ballard, Dr. Robert, role in
 science education (Editorial) 4/7
Battelle R&D expenditures forecast 2/9
Battery, seawater, for buoys (article) 11/63
Beach erosion, study in lab 6/91
Bedford Institute of Oceanography (Mini-Profile) 10/69
Beryllium, ocean circulation indicator 5/99
Biodiversity,
 drug research funded 12/80
 NSF funds awarded 11/71
Biofouling research, ONR (article) 8/35
Biotechnology industry, U.S., exchange (NRC) 6/9
Biotechnology, marine, outlook (R&F) 1/25
Black Sea '92 (Conference Report) 12/63
Blue Revolution, use ocean resources (article) 9/23
Budgets,
 Coast Guard, MarAd authorizations 7/65
 defense spending for oceans (Editorial) 11/7
 EPA looking for deep cuts 12/9
- FY 93 ocean funding request (article) 4/73
NOAA FY 93 appropriation "pork" 11/68
NOAA priorities & levels (R&F) 1/34
Buoy, ESOM, mooring evaluation (article) 2/15
Buoys, seawater battery (article) 11/63
Business development,
 U.S./Canada network (article) 11/58
Business forecast,
 (editorial) 1/7
 industry (R&F) 1/48
 reader survey (article) 1/61
- C-**
- Cable & Connector Workshop
 (Conference Report) 7/62
Cable, fiber optic, for communications (article) 7/39
Cable installation,
 Seabed Tractor (article) 12/15
 submarine, ISIS (article) 10/61
Cable strum, suppressing in towed arrays (article) 7/47
Cable winch, Sidewinder applications (article) 7/27
Cable-connector assemblies, options (article) 7/10
Cameras, video imaging,
 improved for MCM ROV (article) 5/15
Center for Great Lakes Studies (Mini-Profile) 4/79
Central America,
 Appeals Court denies rehearing 11/9
 court ruling 10/103
Chesbrough, R&Dm, Geoffrey L.
 (Personality Profile) 12/55
Chile Triple Junction, spreading ridge (article) 8/59
Clark, Dr. Eugene (Personality Profile) 2/77
Climate control, oceanic thermostat (article) 9/29
Coast Guard,
 amends underpressure systems report 12/70
 authorization bill reported 7/65
 new commercial fishing safety rules 12/69
 new tanker operation rules 12/9
 user fees repeal 6/9
 year of diversity (R&F) 1/21
Coastal issues, NOAA agenda (R&F) 1/11
Coastal oceans,
 Loran-C drifter measurements (article) 8/24
CoastWatch program update (article) 8/19
Collecting back issues (Editorial) 5/7
Commercial environmental technologies
 (EPA & DoE) 9/9
Commercial fishing,
 industry outlook (R&F) 1/31
 management practices (Editorial) 7/7
 needs updated technologies (article) 9/95
 USCG proposes new safety rules 12/69
Commercial R&D, DoE program 7/65
Commercialization support, federal (Editorial) 10/7
Communications,
 acoustic, UUVs (article) 5/10
 diver, wireless (article) 5/61
Company Profiles,
 EPC Labs Inc. 8/52
 G&H Technology Inc. 7/34
 General Offshore Corp. 2/69
 Marsh-McBirney Inc. 12/21
Competitiveness,
 moving R&D to economic action (Soapbox) 3/105
 U.S./Canada network (article) 11/58
Conference Previews,
 Hydro '92 1/65
 Intervention/ROV '92 5/51
 MTS '92 9/89
 Oceanology International '92 2/49
- Oceans '92 9/93
OTC '92 4/85
SEG '92 10/57
Undersea Defence Technology '92 6/53
Underwater Intervention '93 12/33
Conference Reports,
 Black Sea '92 12/63
 Cable & Connector Workshop 7/62
 MTS '91 1/55
 MTS '92 12/65
 NOIA annual meeting 5/55
 Oceanology International '92 5/35
 Oceans '92 12/62
Congress, balance growth &
 environmental protection (R&F) 1/33
Connectors, polymer-to-metal bonding (article) 4/41
Corps of Engineers,
 coastal engineering issues (R&F) 1/36
COSPAS-SARSAT to celebrate 10th year 5/99
Craven, John, Spillhaus debate revisited (article) 3/43
CTD profiler, autonomous & expendable (article) 9/49
Current profiler, acoustic, BroadBand (article) 2/59
- D-**
- Data communications fog (Soapbox) 6/93
Depth sounders, neural networks (article) 3/39
Diamonds, high potential offshore Namibia (column) 12/85
Differential GPS,
 3-D seismic survey accuracy (article) 3/35
 Coast Guard network 3/11
 vessel traffic systems (article) 3/27
Digital selective calling, vessel traffic system 3/27
Dissolved oxygen sensors,
 environmental monitoring (article) 9/47
Diving, commercial, industry status (article) 12/10
Diver communications, wireless (article) 5/61
Diver survey, North Sea (article) 2/79
Divers, team with ROVs, acoustics
 for salvage (article) 6/47
Dolphins,
 conservation act enacted 12/68
 Studds bill approved by Congress 11/69
 tuna-fishing deaths, NRC report 6/91
Doppler speed logs (article) 8/55
Driftnet ban, House re-passes bill 9/97
Driftnets,
 Congress passes bill 11/68
 House legislation bans 6/63
- E-**
- Earle, Dr. Sylvia, resigns as NOAA chief scientist 2/9
Earth Observing System (NASA) (R&F) 1/12
Economics in fisheries management, computer 8/91
Editorials,
 business outlook good 1/7
 Clinton/Gore technology policy 12/7
 collecting back issues 5/7
 commercial fishing management practices 7/7
 defense spending: silver lining 11/7
 establish ocean resource technology corporation 9/7
 jobs & opportunities 3/7
 ocean resources economic benefit 6/7
 science education progress needed 4/7
 synergism in instrumentation 2/7
 technology support growing 10/7
 where's "O" in energy strategy? 8/7
Education,
 critical to science literacy (Soapbox) 12/105

(Continued on page 94)

Nova Univ. Oceanographic Center	3/47
progress needed (Editorial)	4/7
EEZ, resource assessment,	
bathymetric mapping (article)	6/27
El Niño predicted by NOAA,	
Lamont-Doherty scientists	2/9
Electronic charts,	
ECDIS not enough (Soapbox)	7/93
effects on watch officers	2/87
German sea trials	1/72
Energy strategy,	
bill passes House	7/64
no ocean power mentioned (Editorial)	8/7
Environmental data logging (article)	8/29
Environmental products, NETTI to aid export	12/9
Environmental research,	
ONR offers to fund projects	11/81
Environmental security & instrumentation	
(Soapbox)	8/93
EPA, looking for deep cuts	12/9
EPC Labs Inc. (Company Profile)	8/52
ESOM buoy,	
acoustic modem tests (article)	5/29

mooring evaluation (article)	2/15
Explosive launcher, seismic sound source (article)	10/41

-F-

Fiber optics,	
undersea communications (article)	7/39
Fifth force, no evidence	1/91
Fisher, Mel, NOAA files suit	5/9
Fisheries management, computer analysis	8/91
Fisheries, ocean resource	9/17
Fishing, recreational, interest still climbing	12/9
Fleet modernization,	
NOAA acquires Navy T-AGOS	7/9
NOAA answers panel	10/9
NOAA plans (R&F)	1/11
OAMAC criticism	5/69
Fluorometer oil spill alarm (article)	9/67
Fresh water, ocean resource	9/20

-G-

G&H Technology Inc. (Company Profile)	7/34
Gas hydrates, methane source	4/91
General Offshore Corp. (Company Profile)	2/60

Geographical information systems,	
for search & salvage (article)	2/40
Geophysical exploration,	
industry status report (article)	10/15
Geostat, altimetry data released	7/9
Geothermal power,	
from hydrothermal vents (article)	4/49
Global Positioning System,	
market future (article)	3/10
receivers directory (article)	3/13
selective availability	3/11
use with drifting buoys promising	3/90
Global sea level, NOAA program (article)	6/55
Global warming,	
arctic influences	6/64
effects in Pacific	6/65
methane accumulating slower	8/9
mitigate by managing oceans (article)	9/29
scratch Earth wobble theory?	11/9
GLOBEC, NSF programs (R&F)	1/31
GMDSS, system update (article)	1/58
GPS/ DGPS, for offshore positioning (article)	3/61
GPS, differential,	
3-D seismic survey accuracy (article)	3/35
Coast Guard network	3/10
vessel traffic systems (article)	3/27
Gyre, R/V, rescue effort	4/119

-H-

Hard minerals, ocean resource	9/19
Hawaii debate, Spilhaus & Craven,	
revisited (article)	3/43
Hawaii resources workshop,	
establish NORTC (Editorial)	9/7
Haves, at-sea acoustic test facility (article)	11/41
HI-MAP, shallow water survey system (article)	3/21
Horizontal drilling, Texaco sets record	8/72
Human-powered submarine races, moving	8/9, 8/91
Hydro '92 (Conference Preview)	1/65

-I-

Image processing, side-scan sonar targets (article)	9/57
Innerspace race (Soapbox)	2/117
Institute for Naval Oceanography, to close	8/9
Institution Profile, Nova Univ.	
Oceanographic Center	3/47
Instrumentation,	
accelerated life testing (article)	12/56
Broadband acoustic current profiler (article)	2/59
competition, U.S./Canada network (article)	11/58
counts plankton with light (article)	2/10
dissolved oxygen sensors (article)	9/47
environmental security (Soapbox)	8/93
near-surface towing (article)	7/49
oil spill remote alarm (article)	9/67
optical scanner for sediments (article)	10/65
polar ocean profiler buoy (article)	9/73
seafloor magnetometer (article)	6/41
synergism in design needed (Editorial)	2/7
synthetic radar for VTS (article)	10/33
Interferometry,	
seafloor mapping (article)	6/10
seafloor mapping (article)	6/23
swath bathymetry technique (article)	6/37
Interior Department, five-year OCS plan (R&F)	1/46
Intervention/ROV '92 (Conference Preview)	5/51

-J-

Jason Project,	
role in science education (Editorial)	4/7
ROV lost	1/9
JGOFS, NSF programs (R&F)	1/29
Jobs, expand NOAA programs (Editorial)	3/7
Jones, Rep. Walter B., dies	10/75

-L-

Lagrangian drifters, Loran-C	8/24
Loch Ness survey underway	8/68
Loch Ness survey, was it "bubbles"?	9/9
Loran-C drifters,	
coastal ocean measurements (article)	8/24
Loran-C, harbor navigation test (article)	4/63

-M-

Magnetohydrodynamic propulsion,	
superconducting (article)	11/29
Magnetometer, seafloor (article)	6/41
Mariculture, ocean resource	9/17
Marine biotechnology,	
ocean resource	9/18
outlook (R&F)	1/25
Marine geodesy, overview (article)	10/71
Marine industries,	
government support needed (Soapbox)	9/129
Marine monitoring challenges	
in Europe (Soapbox)	10/105
Marine recreation, growing resource (R&F)	1/42
Maritime Reform Act of 1992, introduced in House	8/9
Marsh-McBirney Inc. (Company Profile)	12/21
Materials, polymer-to-metal bonding (article)	4/41
Melville, R/V, rejoins Scripps fleet	4/9
Methane absent, Siberian Sea plumes	9/110
Methane, accumulating slower in atmosphere	8/9

When you're under a lot of pressure, call Grace Syntactics.

Facing a tight deadline for your undersea project? Then call us early on. You might be surprised at how much help we can be.

Are you working on weapons systems? Undersea detection or surveillance? ROV's or manned submersibles? Buoys, instrumentation packages, oil rig risers? Or a classified project you can't identify?

Whatever the job, we're ready to put our expertise to work for you. Ready to custom-formulate products to your exact requirements. And ready with two brand-new manufacturing plants to meet your delivery schedule anywhere in the world.

Our Ecofoam® and Syntac® syntactic foams are best known for their remarkable buoyancy and proven survivability to 20,000 feet. But many use them for

their acoustical, thermal, dielectric and structural properties as well.

Ask us about the properties you need. Tap into our experience. We pioneered syntactic foam 30 years ago, and since then we've supplied more than 75% of undersea projects worldwide.

Send for our capabilities brochure. We're Grace Syntactics, a unit of Emerson & Cuming, subsidiary of W. R. Grace & Co., 59 Walpole Street, Canton, MA USA 02021. (617) 821-4250. Or Westerlo, Belgium. (014) 57.56.11.

Talk to us. We can help take the pressure off.

GRACE Syntactics

Methane suspected, Siberian Sea plumes	5/74
MIDAS, environmental data logging (article)	8/29
Mine countermeasures ROV, improved imaging system (article)	5/15
Mine-hunting, AUV, image processing (article)	4/55
Mini-Profiles, Bedford Institute of Oceanography	10/69
Center for Great Lakes Studies	4/79
Offshore Technology Research Center	5/59
Penn State Univ., Applied Physics Lab	3/50
Skidaway Institute of Oceanography	8/61
U.S. Army Topographic Engineering Center	7/53
Monitoring, Persian Gulf oil spill	1/75
MTS '91 (Conference Report)	1/55
MTS '92 (Conference Preview)	9/89
MTS '92 (Conference Report)	12/65
MTS, Ropes/Tension group formed	7/91
Multibeam mapping, EEZ resources (article)	6/27
interferometry	6/10, 6/23
Sea Beam 2000 (article)	6/10
Seabed 9001 (article)	6/17

Available Now

Multiparameter Water Quality Data Systems

High Performance

- 8 basic measurements with one 3-1/2 inch diameter probe
- in situ measurements to 150 meters in freshwater, seawater, and groundwater
- direct PC compatibility

Durable and Reliable

- 2-year warranty
- watertight marine construction

Free Customer Support

- applications assistance
- training video

Easy to Use & Calibrate

- 12-volt battery-operated
- field-replaceable probes
- menu-driven software

the leader
in durable, multiparameter
Water Quality Monitoring Instruments
- think RELIABILITY

SOPHISTICATED SIMPLICITY

If reliability, versatility and accuracy counts,
your best choice for tide and wave measurement
is the Stepgaug

- Real defining of waterlevel by means of immediate digitizing, principally no zero drift
- High resolution probabilistic sealevel measurement, especially useful for long term sealevel reference monitoring
- Robust, reliable, dedicated to high sea circumstances
- Modular design, to be piled from 1 section to 6 sections with a length of 1.5 m, 3 m or 6 m each
- No underwater cabling, inductive passing of signals
- Low power consumption, built-in battery for lifetime
- Static, no moving parts
- Highly fouling resistant
- Easy to handle and install.

SURVIVABLE SOLUTIONS
For Your Underwater Cables

STOPPER GRIP™ Termination
Fast, field-installable termination for stopping-off bare or jacketed cables

PMI Helical Armor Rods
Helical wrap-on design used to provide localized protection

EVERFLEX™ Bending Strain Relief
Slip-on protection to control bending radius for cables and hoses

DYNA-GRIP® Termination
Full-strength termination with proven performance against severe at-sea conditions

PMI Ball Joint Tow Point Adaptor
Extends the working life of your cable system, by providing articulation at the termination point

DAM/BLOK™ Underwater Electrical Splice Kit
Field installable electrical splice kit for full ocean depth use

Sea Technology Buyers Guide/Directory

New edition of the only complete directory serving the ocean/marine community, with updated listings and information about equipment; manufacturers and firms providing services to the industry and government; a classified cross index of products; and directories of ocean/marine research vessels, geophysical survey vessels, and government agencies related to the ocean/marine/offshore field.

The standard reference for the ocean community—who makes what... where to buy it... names... addresses... phone numbers.

Covers shipbuilding, submersibles, buoys, structures, propulsion systems, power plants, electrical equipment, underwater ordnance, surveillance equipment, detection systems, navigation and positioning equipment, communications, telemetry, sensors, recorders, instrumentation, test equipment, analyzers, computers, data processing equipment, construction materials such as steel, plastics and aluminum, winches and deck gear, life support and safety equipment, cable and supplies.
